Board of Directors

Independent Auditor's Report

Board of Directors University of Kentucky Mining Engineering Foundation, Inc. Lexington, Kentucky

We have audited the accompanying basic financial statements, which are comprised of the statements of net position as of June 30, 2013 and 2012, and statements of revenues, expenses and changes in net position and of cash flows for the years then ended and the related notes to the financial statements, as listed in the table of contents, of the University of Kentucky Mining Engineering Foundation, Inc. (Foundation), a not-for-profit corporation affiliated with and a component unit of the University of Kentucky.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Directors University of Kentucky Mining Engineering Foundation, Inc. Page 2

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of June 30, 2013 and 2012, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The board of directors listing as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Louisville, Kentucky October 1, 2013

Management's Discussion and Analysis

The University of Kentucky Mining Engineering Foundation's (the Foundation) Management's Discussion and Analysis (MD&A) of its financial condition provides an overview of the financial performance of the Foundation for the years ended June 30, 2013 and 2012. Management has prepared this discussion, which provides summary financial information, along with the financial statements and related footnotes. MD&A should be read in conjunction with the accompanying financial statements.

Financial Highlights

Total assets increased \$109,265 or 6.7% due to an increase in the market value of endowment investments of \$168,926 offset by an decrease of \$59,661 in cash and cash equivalents. Net position represented nearly 100% of total assets.

Using the Annual Report

This financial report consists of three financial statements: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities.

One of the most important questions asked about the Foundation's finances is whether the Foundation is better off as a result of the year's activities. One key to answering this question is the financial statements of the Foundation. The Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows present financial information on the Foundation in a format similar to that used by corporations and present a long-term view of the Foundation's finances. The Foundation's net position (the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources) is one sign of the Foundation's financial health. Over time, increases or decreases in net position indicate the improvement or erosion of the Foundation's financial health.

The Statement of Net Position includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources. It is prepared on the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged.

The Statement of Revenues, Expenses and Changes in Net Position presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or non-operating. Gifts and endowment and investment income are classified as operating revenues because fundraising activities represent the Foundation's primary operating purpose.

Another important factor to consider when evaluating financial viability is the Foundation's ability to meet financial obligations as they become due. The Statement of Cash Flows presents information related to cash inflows and outflows, summarized by operating, capital, financing and investing activities.

Reporting Entity

The University of Kentucky Mining Engineering Foundation, Inc. is a not-for-profit Kentucky corporation formed to establish a continuing partnership between the University of Kentucky (the University) and the mining industry in the Commonwealth of Kentucky for the enhancement and improvement of the Mining Engineering Department of the College of Engineering. The Foundation is considered to be an affiliate and component unit of the University because all Board members are related to the University as faculty or staff and/or are appointed by the President of the University, and certain officers of the Foundation are officers of the University.

Condensed Financial Information

Statements of Net Position

	2013	2012	2011
ASSETS			
Current assets	\$ 6,413	\$ 16,074	\$ 15,909
Noncurrent assets	1,743,164	1,624,238	1,709,740
Total assets	1,749,577	1,640,312	1,725,649
LIABILITIES			
Current liabilities	7,430	1,403	1,726
Total liabilities	7,430	1,403	1,726
NET POSITION			
Restricted			
Nonexpendable	650,576	650,226	649,851
Expendable	1,091,571	988,683	1,074,072
Total net position	\$ 1,742,147	\$ 1,638,909	\$ 1,723,923

<u>Assets.</u> As of June 30, 2013, the Foundation's assets totaled \$1,749,577. Endowment investments represented 99.6% of the Foundation's assets. Total assets increased \$109,265 during the year ended June 30, 2013, due primarily to an increase in the market value of endowment investments due to improved market conditions. The endowment pool posted a total gain of 11.54% for fiscal year 2013 compared to a loss of 0.85% in the prior year.

Liabilities. At June 30, 2013, the Foundation had liabilities of \$7,430.

<u>Net Position.</u> Net position at June 30, 2013 totaled \$1,742,147, or nearly 100% of total assets, all of which were restricted.

Total net position increased \$103,238 during the year ended June 30, 2013. Expendable restricted net position increased \$102,888 primarily because of endowment gains due to improved market conditions.

2012 Versus 2011. Total net position decreased \$85,014 from June 30, 2011 to June 30, 2012. Expendable restricted net position decreased \$85,389 primarily because of an endowment loss due to a decline in the capital markets.

Statements of Revenues, Expenses and Changes in Net Position

	2013	2012	2011
OPERATING REVENUES Operating revenue Total operating revenues	\$ 187,165 187,165	\$ (6,478) (6,478)	\$ 279,503 279,503
OPERATING EXPENSES Educational and general Grants to the University of Kentucky Total operating expenses	80,004 4,273 84,277	74,817 4,094 78,911	63,177 6,207 69,384
NET INCOME (LOSS) FROM OPERATIONS	102,888	(85,389)	210,119
NONOPERATING REVENUES Additions to permanent endowments Total nonoperating revenues	350 350	375 375	400
Total increase (decrease) in net position	103,238	(85,014)	210,519
Net position, beginning of year	1,638,909	1,723,923	1,513,404
Net position, end of year	\$ 1,742,147	\$ 1,638,909	\$ 1,723,923

<u>2013.</u> The Foundation had operating revenues of \$187,165, an increase of \$193,643 from the previous year, due to investment income of \$187,165 in fiscal year 2013 compared to investment loss of \$12,718 resulting in a net change of \$199,883. In addition, other operating revenues decreased \$6,240.

Operating expenses totaled \$84,277, of which 94.9% was used for educational and general expenses related to instruction, and the remaining 5.1% was used to provide grants to the University for non-capital purposes.

<u>2012 Versus 2011.</u> Net operating income decreased \$295,508 when comparing fiscal year 2012 to fiscal year 2011. Total operating revenue decreased \$285,981 due to decreased realized and unrealized gains on endowment investments as well as a decrease in other operating revenues. Total operating expenses increased \$9,527 primarily in education and general expenses offset by a decrease in grants to the University for non capital purposes.

Statements of Cash Flows

Another way to assess the financial health of an organization is to look at the Statement of Cash Flows. The primary purpose of the Statement of Cash Flows is to provide information about the cash receipts and cash payments made by the Foundation during the period. The Statement of Cash Flows also helps financial statement readers assess the Foundation's:

- ability to generate future net cash flows,
- ability to meet obligations as they become due, and
- need for external financing.

	2013	2012		2012 20	
CASH PROVIDED (USED) BY:					
Operating activities	\$ (78,250)	\$	(72,994)	\$	(69,167)
Noncapital financing activities	350		375		400
Investing activities	18,239		80,970		79,058
Net increase (decrease) in cash and cash equivalents	(59,661)		8,351		10,291
Cash and cash equivalents, beginning of year	66,074		57,723		47,432
Cash and cash equivalents, end of year	\$ 6,413	\$	66,074	\$	57,723

2013. Cash payments for operating activities were primarily reimbursements to the University for salaries and benefits totaling \$40,777 and payments to vendors and contractors for goods and services of \$33,200.

Cash receipts in the noncapital financing activities group relate to private gifts to the permanent endowment of \$350.

Cash provided by investing activities includes \$1,069,782 from the sale of investments and interest and dividend income of \$29,244, net of \$1,080,787 expended on the purchase of investments.

<u>2012 Versus 2011.</u> In fiscal year 2012 cash increased \$8,351 compared to an increase of \$10,291 in 2011. The decrease in cash flows was primarily related to a increase in cash used by operating activities.

Capital Asset and Debt Administration

<u>Capital Assets.</u> Capital assets purchased by the Foundation are granted to the University of Kentucky at the time of acquisition.

Debt. The Foundation had no debt at or during the year ended June 30, 2013.

Factors Impacting Future Periods

Due to the current economic climate, investment losses and declines in donations could negatively impact the Foundation's future financial results.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The University of Kentucky Mining Engineering Foundation, Inc. (the Foundation) is a not-for-profit Kentucky corporation formed to establish a continuing partnership between the University of Kentucky (the University) and the mining industry of the Commonwealth of Kentucky (the Commonwealth) for the enhancement and improvement of the Mining Engineering Department of the College of Engineering. The Foundation is considered to be an affiliate and component unit of the University because all Board members are related to the University as faculty or staff and/or are appointed by the President of the University, and certain officers of the Foundation are officers of the University.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). GASB establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following net position categories:

 Net investment in capital assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

Restricted:

Nonexpendable – Net position subject to externally imposed stipulations that it be maintained permanently by the Foundation. Such assets include the Foundation's permanent endowment funds.

Expendable – Net position whose use by the Foundation is subject to externally imposed stipulations that can be fulfilled by actions of the Foundation pursuant to those stipulations or that expire by the passage of time.

 <u>Unrestricted:</u> Net position whose use by the Foundation is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Directors or may otherwise be limited by contractual agreements with outside parties.

The financial statement presentation is intended to provide a comprehensive, entity-wide perspective of the Foundation's assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, expenses, changes in net position and cash flows.

During the year ended June 30, 2013 the Foundation adopted GASB No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position.

The objective of GASB No. 63 is to provide guidance for reporting deferred outflows of resources, deferred inflows of resources and net position in a Statement of Financial Position and related disclosures. GASB No. 63 has been applied retrospectively, by reclassifying certain 2012 financial statement line items to conform with the presentation requirements of the standard.

In addition to assets, GASB No. 63 requires the presentation of a separate financial statement element, deferred outflows of resources, which represents a consumption of net position that applies to a future period. The Foundation has no items that qualify for reporting in this category.

In addition to liabilities, GASB No. 63 requires the presentation of a separate financial statement element, deferred inflows of resources, which represents an acquisition of net position that applies to a future period. The Foundation has no items that qualify for reporting in this category.

Summary of Significant Accounting Policies

<u>Accrual Basis.</u> The financial statements have been prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when an obligation has been incurred.

<u>Cash and Cash Equivalents.</u> The Foundation considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Cash and cash equivalents of the Foundation's endowment fund are included in noncurrent endowment investments.

<u>Pooled Endowment Funds.</u> All endowments are managed in a consolidated investment pool, which consists of more than 2,000 named funds. All contributing endowments participate in the income and appreciation of the pool on a per unit basis commensurate with their contribution to the pool. New endowments purchase units in the pool at the current unit value, which is calculated each month based on the fair value of the pool investments divided by the number of pool units outstanding. The market value method of accounting for pooled endowment funds is employed to ensure proper distribution of market price changes, realized gains (losses) on sales, accrued income earned, and distribution of investment earnings for expenditure by participating funds.

In accordance with the Kentucky Uniform Prudent Management of Institutional Funds Act (UPMIFA), as adopted by the Commonwealth in July 2010, the University employs a total return method for establishing investment objectives and spending policies designed to achieve financial equilibrium for endowment funds over the long term. The University has made expenditure decisions in accordance with UPMIFA and donor gift agreements. UPMIFA prescribes guidelines for expenditure of a donor-restricted endowment fund (in the absence of overriding, explicit donor stipulations) and focuses on the entirety of a donor-restricted endowment fund, that is, both the original gift amount(s) and net appreciation. In accordance with the standard of prudence prescribed by UPMIFA and consistent with industry standards, the University has adopted a spending policy whose long-term objective is to maintain the purchasing power of each endowment and provide a predictable and sustainable level of income to support current operations.

For the years ended June 30, 2013 and 2012, the University's endowment standard spending rule provided for annual distributions of 4.25% of the 60 month moving average market value of fund units. In recognition of recent adverse market performance, reduced spending rules were established for certain endowments whose market value was less than the contributed value as of December 31st , which is the measurement date for calculating spending distributions for the following fiscal year. Additionally, for the years ended June 30, 2013 and 2012, the University's annual endowment management fee was 0.25%, however endowments whose market value was less than the contributed value as of December 31st were exempt from the management fee in the subsequent fiscal year.

The amount of gross spending policy distribution in accordance with the University's endowment spending policy was \$66,668 and \$69,047 for the years ended June 30, 2013 and 2012, respectively.

For future years the University has established a "hybrid" spending policy, which includes both the market value of the endowment and the current level of inflation in determining spending each year. Annual spending will be calculated by taking a weighted average comprising 60% of the prior year's spending, adjusted for inflation, and 40% of the amount that results when the target annual spending rate of four percent is applied to the average market value of the Endowment over the preceding 36 months. The spending amount determined by the formula will be constrained so that the calculated rate is at least three percent, and not more than six percent, of the current Endowment market value. The hybrid spending policy will be phased in over two years. The year ended June 20, 2014 will serve as a transition year to

the new policy and spending will be based on four percent of the average market value for the preceding 60 months. The hybrid policy will be fully implemented in the year ended June 30, 2015.

Additionally, for fiscal years ending June 30, 2014 and thereafter, spending and management fee withdrawals will be suspended on all endowments with a market value less than the contributed value by more than 20% at December 31st of the prior year. Endowments with a market value less than the contributed value by more than 10% will undergo a formal review to determine the appropriate level of spending in accordance with various factors set forth in UPMIFA.

<u>Investments.</u> Investments in marketable securities are carried at fair value, as determined by the major securities markets. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the Statement of Revenues, Expenses and Changes in Net Position.

<u>Income Taxes.</u> The Foundation has been granted exemption from federal income taxation pursuant to the provisions of Internal Revenue Code section 501(c)(3).

<u>Restricted Asset Spending Policy.</u> The Foundation's policy is that restrictions on assets cannot be fulfilled by the expenditure of unrestricted funds for similar purposes. The determination of whether restricted or unrestricted funds are expended for a particular purpose is made on a case-by-case basis. Restricted funds remain restricted until spent for the intended purpose.

<u>Operating Activities.</u> The Foundation defines operating activities, as reported on the Statement of Revenues, Expenses and Changes in Net Position, as those that generally result from exchange transactions, such as payments received for providing goods and services and payments made for goods and services received. Gifts and endowment and investment income are also classified as operating revenues because fundraising activities represent the Foundation's primary operating purpose.

<u>Use of Estimates.</u> The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to use estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The accompanying financial statements include estimates for items such as accrued expenses for payroll and other liability accounts.

2. DEPOSITS AND INVESTMENTS

The fair value of deposits and investments, by type, at June 30, 2013 and 2012 is as follows:

	2013	2012
Cash on deposit with the University Investment in University pooled endowment fund	\$ 6,413 1,743,164	\$ 66,074 1,574,238
Total	\$ 1,749,577	\$ 1,640,312

At June 30, 2013, the University's pooled endowment fund consisted of common and preferred stock (4.3%), pooled equity funds (37.9%), pooled private equity funds (8.3%), pooled absolute return funds (20.2%), pooled real return funds (8.5%), pooled real estate funds (6.7%), U.S. Treasury fixed income (0.8%), government agency fixed income funds (0.9%), corporate fixed income funds (2.3%), pooled fixed income funds (9.3%) and cash and cash equivalents (0.8%). At June 30, 2012, the University's pooled endowment fund consisted of common and preferred stock (3.6%), pooled equity funds (37.5%), pooled private equity funds (7.5%), pooled absolute return funds (19.7%), pooled real return funds (9.5%), pooled real estate funds (6.6%), U.S. Treasury fixed income (1.0%), government agency fixed income funds (1.0%), corporate fixed income funds (2.9%), pooled fixed income funds (10.5%) and cash and cash equivalents (0.2%).

Deposit and investment policies. The Foundation follows the deposit and investment policies established by the University's Board of Trustees. Such policies are developed to establish and maintain sound financial management practices for the investment and management of the Foundation's funds.

For purposes of investment management, the Foundation's deposits and investments can be grouped into two significant categories, as follows:

- Cash on deposit with the University, which the University invests in deposits and repurchase agreements with banks and the Commonwealth, and
- Endowment investments in the University's pooled endowment fund.

Cash on deposit with the University is managed based on the University's Operating Fund Investment Policy approved by the Investment Committee of the University's Board of Trustees.

Endowment investments are managed by the University's Endowment Investment Policy as established by the Investment Committee of the University's Board of Trustees, which governs the University's pooled endowment fund.

Deposit and investment risks. The Foundation's deposits and investments are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could affect the investment amounts in the Statement of Net Position.

<u>Credit Risk.</u> Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligation, causing the Foundation to experience a loss of principal.

As a means of limiting its exposure to losses arising from credit risk, the University's investment policies limit the exposure of its various investment types, as follows:

- Cash on deposit with the University is governed by policy that minimizes risk in several ways. Deposits are governed by state law which requires full collateralization for balances exceeding amounts covered by the Federal Deposit Insurance Corporation. The Foundation's deposits are insured up to \$250,000 at each FDIC insured institution. Credit risk on repurchase agreements is mitigated by requiring the issuing financial institution's pledge of specific U.S. Treasury or agency securities, held in the name of the University by the Federal Reserve Bank. Credit risk on repurchase agreements with the Commonwealth is mitigated by the Commonwealth's requirement that providers of overnight repurchase agreements collateralize these investments at 102% of face value with U.S. Treasury or agency securities, pledged in the name of the Commonwealth.
- Endowment managers are permitted to use derivative instruments to limit credit risk. Additionally, endowment investments held by the University's fixed income managers are generally limited to holdings of high quality fixed income securities. These managers may invest a portion of the portfolio in other below-investment grade bonds, non-U.S. dollar denominated bonds, and emerging market bonds, provided the overall credit quality of the fixed income portfolios is not lower than A-.

<u>Custodial Credit Risk.</u> Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party.

As a means of limiting its exposure to losses arising from custodial credit risk, the University's investment policies limit the exposure of its various investment types, as follows:

- Cash on deposit with the University is invested in deposits and repurchase agreements held in the University's name. Deposits and repurchase agreements with the Commonwealth are held in the Commonwealth's name. The University maintains records evidencing the Foundation's ownership interest in such balances.
- Endowment investments are held in the University's name by the University's custodian. The
 University maintains records of the Foundation's ownership interest (units) in the University's pooled
 endowment fund.

<u>Concentrations of Credit Risk.</u> The Foundation's investments can be exposed to a concentration of credit risk if significant amounts are invested in any one issuer.

As a means of limiting its exposure to concentrations of credit risk, the University's investment policies limit concentrations in various investment types, as follows:

- Cash on deposit with the University is not limited as to the maximum amount that may be deposited
 or invested in one issuer. However, all such deposits in excess of Federal Depository Insurance are
 required to be fully collateralized by U.S. Treasury and/or U.S. agency securities or other similar
 investments as provided by KRS 41.240.
- The University's endowment fixed income managers are limited to a maximum investment in any one issuer of no more than five percent of total investments excluding sovereign debt of governments belonging to the Organization for Economic Cooperation and Development and U.S. agencies.

At June 30, 2013, the Foundation had no underlying investments in any one issuer which represent more than five percent of total investments other than U.S. Treasury and agency obligations.

<u>Interest Rate Risk.</u> Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

As a means of limiting its exposure to fair value losses arising from increasing interest rates, the University's investment policies limit the maturity of its various investment types, as follows:

- Cash on deposit with the University has limited exposure to interest rate risk due to the short term
 nature of the investment. The University requires that all deposits and repurchase agreements be
 available for use on the next business day.
- Endowment managers are permitted to use derivative instruments to limit interest rate risk. Additionally, endowment investments held by the University's fixed income managers are limited to a duration that is within +/-25% of the duration of the Barclays Aggregate Bond Index.

<u>Foreign Currency Risk.</u> Foreign currency risk is the risk that fluctuations in exchange rates will adversely affect the fair value of an investment or deposit.

The Foundation's exposure to foreign currency risk derives from certain endowment investments of the University's pooled endowment fund. The University's investment policy allows fixed income managers to invest a portion of their portfolios in non-U.S. securities. Additionally, the investment policy allows various pooled fund managers to invest in accordance with the guidelines established in each individual fund's prospectus, which allows for investment in non-U.S. securities. The University's investments in the various pooled funds are denominated in U.S. dollars, with the exception of two private equity funds denominated in Euros. Endowment managers are permitted to use derivative instruments to limit foreign currency risk.

3. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities as of June 30, 2013 and 2012 are as follows:

	2013	2012
Payable to vendors and contractors	\$ 7,430	\$ 1,403

4. INVESTMENT INCOME

Components of investment income for the years ended June 30, 2013 and 2012 are as follows:

	2013		<u> </u>		2012
Interest and dividends earned on endowment investments	\$	29,229		\$	27,106
Realized and unrealized gains and losses on endowment					
investments		157,921			(39,842)
Interest on cash and non-endowment investments		15	_		18
Total	\$	187,165	_	\$	(12,718)

5. RISK MANAGEMENT

The Foundation is exposed to various risks of loss related to torts and errors and omissions. These risks are covered by extension of coverage by the University's participation in an insurance risk retention group and self-insurance. Claims against directors and officers for wrongful acts (errors and omissions) are insured through a risk retention group. There have been no significant reductions in insurance coverage from 2012 to 2013. Settlements have not exceeded insurance coverage during the past three years.

6. TRANSACTIONS WITH THE UNIVERSITY

Grants to the University are for endowment management fees. All salaries, wages and benefits reimbursements to the University represent charges for University employees.

7. RECLASSIFICATION

Certain reclassifications have been made to the fiscal 2012 financial statement amounts to conform to the fiscal year 2013 financial statement presentation. Certain transactions previously reported as reductions of cash and cash equivalents are now being reported as accounts payable and accrued liabilities in the Statement of Net Position. Such reclassifications had no effect on the change of net position.
